

PROFESSIONAL LICENSURE **(1964, R1994, R2000, R2001, R2002)**

Policy Statement

The American Society of Landscape Architects supports licensure of the practice of landscape architecture within the United States and its territories as the only effective regulatory measure, by which to protect the public health, safety and welfare and to maximize practitioners' ability to compete within regulated markets of the design professions.

Note

This policy serves as the preamble to a group of policies on professional licensure that includes definition of landscape architectural practice, prerequisites for licensure, reciprocity, and enforcement.
